Why YouLEAD?

Being a part of a young person’s life – supporting them to explore, experience and develop an understanding of themselves and the world around them – is both an incredible gift and responsibility.

Whether you’re playing, mentoring, or learning with them, young people can change your life while you’re trying to change theirs. It can change who you are. This is especially true if you are supporting a young person who is facing significant challenges.

Through transformational leadership programming, YouLEAD builds your capacity to support the well-being of young people and to strengthen the resilience of communities in Canada and around the World.

“I work in places that experience deep trauma. I feel an urgency to address young people through this work – to support young people to embrace wholeness as a way of being in the world.”
– Kim Haxton, IndigenEYES, YouLEAD course participant
