

Invitation and Terms of Reference for making recommendations the drafting process

A wide variety of related global consultations will be conducted in person and via multi-media modalities to allow interested parties to be informed of the program and its progress, and to provide perspective and advice by communicating directly with the Chairs of GC19-POD. Comments and suggestions will be carefully considered as the GC is drafted to respect the desires and requirements of the Committee, whom will make the final decisions on all aspects of GC19. **It will be particularly helpful if recommendations for inclusions in the draft for GC19 are provided in accordance with the terms of reference below.**

Terms of reference for recommending inclusions in the draft for GC19

If you wish to recommend inclusions for the draft of GC19, please structure your recommendations in accord with the outline/structure provided below. This will greatly facilitate their consideration.

- (a) Identify the essential principle, standard or element for inclusion;
- (b) Suggest the way that it should be presented – what needs to be in the GC;
- (c) Provide rationale for the inclusion;
- (d) Document sources – particularly provide 2-3 strong sources of support
- (e) Identify, if relevant, any special challenges (risks or restraints) and supports (previous successes or readiness in critical conditions);
- (f) Identify or propose timelines, if applicable
- (g) Provide suggestions for related inclusions in GC19 implementation support materials/systems
